

# In the Mix Registration

In the Mix is a two-day, interactive workshop designed for undergraduates to gain hands-on experience with data science, theory, and experimental techniques that are critical to the development of materials for new generations of battery technologies. Participants will learn how batteries help the development of renewable energy resources, and we will have a tour of a wind farm operation as well. For parts of In the Mix, long pants and closed-toe shoes are required. <https://d3tales.as.uky.edu/in-the-mix>
